

Monroe City Schools

Junior High School Registration Handbook 2019 – 2020

The District shall strive to have all courses listed taught at each junior high school. However, if a course (other than a magnet program course) is ultimately not taught at a given school, students at that school who wish to take that course will be given the opportunity to take the course at another school in the District. The District will provide free transportation to the course, at the student's request, and will adjust the student's schedule and the scheduling and location of the course, as necessary, to facilitate the student's attendance at the course.

Monroe City Schools

Mission Statement – The Monroe City School District is committed to excellence in teaching and learning. We hold high expectations for all students, parents, and staff. We share, with our community, the responsibility for providing a safe, caring environment designed to help students become productive citizens. We pledge all available resources to help prepare students to live and work in a rapidly changing technological society.

1600 North 19th Street
(318) 323-1143
Principal – Mrs. Dana Mullins

Sherrouse School
300 Sherrouse Avenue
(318) 343-3258
Principal – Mr. Patrick Taylor

General Overview of JH Courses

All Monroe City Schools' junior high schools use an 8 period school day. Core classes (English, math, science and social studies) may be regular, honors/Pre-AP, gifted, inclusion, or self-contained. Honors/Pre-AP and gifted classes tend to be accelerated and provide students with strong academic preparation for high school courses as well as a college-bound pathway. Inclusion and self-contained classes provide students who struggle academically with additional support to succeed.

Students in 7th grade take:

7th grade English Language Arts – 2 class period block

7th grade Math – 2 class period block

7th grade Science

7th grade Social Studies

7th grade Physical Education

And an Elective

Students in 8th grade take:

8th grade English Language Arts – 2 class period block

8th grade Math or Algebra I – 2 class period block

8th grade Science or Physical Science

8th grade Social Studies (Louisiana History)

8th grade Health and Physical Education

And an Elective

- Each junior high school also has information available online
 - Carroll Junior - <http://carrollj.mcschools.net/>
 - Lee Junior - <http://leej.mcschools.net/>
 - MLK Junior - <http://mlking.mcschools.net/>
- MCS provides online access to grades and attendance records through the Parent Command Center at <https://jgrade.mcschools.net/progress/>
- All teachers in Monroe City Schools have webpages that can be accessed through the schools' websites. Contact information and course expectations, as well as homework calendars, are available on teachers' webpages.

Course Descriptions – Required Courses

English Language Arts

English Language Arts courses focus on the development of reading and writing skills for all students. The courses are taught in a two class period block to allow sufficient instructional time to fully engage in selected texts and projects. Specific units for 7th grade include The Giver, A Christmas Carol, How to Write a Memoir, and Frederick Douglass. Specific units for 8th grade include The Call of the Wild, Flowers for Algernon, The Tell-Tale Heart and Night.

Mathematics

Math 7 is designed to help students develop skills with expressions and equations, ratios and proportions, and number systems. The course is paired with a Math Lab class period which is a high school elective credit.

Math 8 is designed to help students continue developing skills with expressions and equations, use geometry to solve problems, and identify and use functions. The course is paired with a Math Lab class period which is a high school elective credit.

Algebra I is a Carnegie credit course for those students who desire to start their high school math coursework early. Topics include solving and graphing linear, quadratic, and exponential equations, solving systems of equations, and factoring polynomials. The required LEAP 2025 HS (EOC) test counts as 15% of the grade in the course.

Science

Science 7 – Integrated Science 7 is designed to give students an overview of basic biology and life science concepts. Specific topics include structure and function in living systems, reproduction and heredity, populations and ecosystems, and adaptations of organisms.

Science 8 – Integrated Science 8 includes topics in physical science, life science, and earth and space science. Topics covered will help students develop an understanding of the characteristics and interrelationships of matter and energy in the physical world; the characteristics and life cycles of organisms and understand their relationships to each other and to their environment; the properties of earth materials, the structure of Earth's system, Earth's history, and Earth's place in the universe; and the natural environment.

Physical Science is a Carnegie credit course for those students who desire to start their high school science coursework early. Topics in the course include safety/measurement/nature of science, forces and motion, work and energy, thermal energy and electricity, magnetism and its uses, waves and sound, electromagnetic waves and light, and phases of matter.

Social Studies

Social Studies 7 is designed to provide an overview of geography, civics, economics and US history. Geography topics include the world in spatial terms, places and regions, physical and human systems, and environment and society. Civics topics include the structure and purpose of government, foundations of the American political system, international relationships, and the role of the citizen. Economics topics include resources, interdependence and decision making.

Social Studies 8 focuses on the geography, history, government and economy of Louisiana. Topics include the history of Louisiana from settlement to the Civil Rights Era including the Louisiana Purchase, as well as the state's unique culture, economy and government. Attention is also paid to how Louisiana's people and environment impact each other.

Physical Education

Physical Education courses are designed to help students be healthy and active. The focus of the course is on individual and team sports. Students participate in activities to improve overall endurance and flexibility and promote lifelong fitness. The course offers opportunities for participation in track, basketball, softball, badminton, and volleyball.

Health Education is a half credit high school course designed to help students develop a heightened sense of personal and social responsibility and provides them with the skills necessary to make wise choices regarding their health. The course focuses on seven priority health issues—strengthening relationships with family and friends; living with feelings and stress; protecting oneself and others; tobacco, alcohol and other drugs; violence prevention; first aid and CPR; and nutrition.

Elective Course Descriptions

Arts and Crafts

Grade Level: 7th and 8th

This course is designed to provide students with basic drawing skills while emphasizing the elements of design. Students learn through a variety of methods including class and individual projects.

Band

Grade Level: 7th and 8th

In this course, students will develop a solid foundation in music theory, application and history. Public performances include pep rallies and athletic events as well as concert programs.

Choir

Grade Level: 7th and 8th

This course teaches vocal techniques, as well as rhythm and harmony techniques, using percussion and melodic instruments. Public performances include honors assemblies and concert programs.

Career Explorations

Grade Level: 8th

HS Credit Course

This course serves as an introduction to a variety of careers. Students explore college and career pathways and plan for careers of interest. Emphasis is placed on the personal traits necessary to succeed in the world of work. High school credit is earned upon successful completion of the course.

Fine Arts Survey

Grade Level: 7th and 8th

This course includes discussion of music, drama, visual arts, and dance from five distinct eras from the 15th to the 21st centuries. Pictures, audio recordings and films are used to demonstrate how the concepts of art and beauty have evolved over time.

Introduction to Business Computer Applications

Grade Level: 7th and 8th Grade

HS Credit Course

This course is designed to provide students with basic keyboarding skills and help students become familiar with Microsoft Word and its applications. Additional software applications may also be included. High school credit is earned upon successful completion.

Journalism

Grade Level: 7th and 8th
HS Credit Course for 8th Grade only

This course introduces students to the world of print, online, and broadcast media. The class includes group projects such as development of school newsletters/newspapers and other publications.

Music Appreciation

Grade Level: 7th and 8th

In this course, students gain an understanding of musical notation and basic music theory, develop individual playing skills, work cooperatively to play in an ensemble, and develop effective practice techniques.

**Speech and Drama**

Grade Level: 7th and 8th
HS Credit Course

This class provides the opportunity to strengthen the students reading, writing, and communications skills through a variety of different projects and activities. This course will prepare students to speak with employers, employees, and other business-related officials and generally prepare life after high school. Topics covered in this course will include interpersonal and intrapersonal communication, political rhetoric, gender communications, career communications, the art of debate, and public speaking.

Orchestra

Grade Level: 7th and 8th

In Orchestra, students learn to play and refine skills using stringed instruments such as the violin and cello. Performance opportunities include honors assemblies as well as concert programs.

Spanish

Grade Level: 7th and 8th
HS Credit Course – 2 years

This course is designed to be an introduction to the basic vocabulary and grammatical structures of the Spanish language. Culture in Spanish-speaking countries is also explored. Students who successfully complete BOTH 7th and 8th grade Spanish earn a Carnegie unit for Spanish I.

Study Skills

Grade Level: 7th and 8th

This course provides academic support for students. Emphasis is placed on developing good study skills, as well as remediation of basic reading and math skills.

Talented Art

Grade Level: 7th and 8th

Talented Art is a course designed to help good artists become better artists. Students explore a variety of drawing media and techniques in the course. Identification for Talented Art is based on guidelines provided in BESE policy (Bulletin 1508).
