Executive Summary

The evaluation of proposals received in response to RFP# 22-01, WAN & Internet Services is complete. We received three proposals, Conterra Networks, Uniti Fiber (Hunt Telecom) and WANRack. The committee recommends Uniti Fiber (Hunt Telecom). I am convinced that the evaluation was handled properly and with fairness to all proposers. I observed no evidence of favoritism or partiality among any of the committee members.

According to our RFP we wanted a vendor that:

- offers fast, reliable internet and WAN services.
- provides competitive pricing
- offers options for growth
- will offer a modern network architecture for the district
- provides options to increase WAN speeds at a competitive price
- has experience and reliable references
- provides good customer service and quick response time to any problems that arise

I therefore support the recommendation to award this RFP to Uniti Fiber (Hunt Telecom).

Please feel free to call me prior to the board meeting with any questions so I may be responsive to any concerns that you might have.
