

Using REMIND!

How do I create a class?

You can create a class via [web](#) or the [Remind app](#) as a teacher, parent, or student.

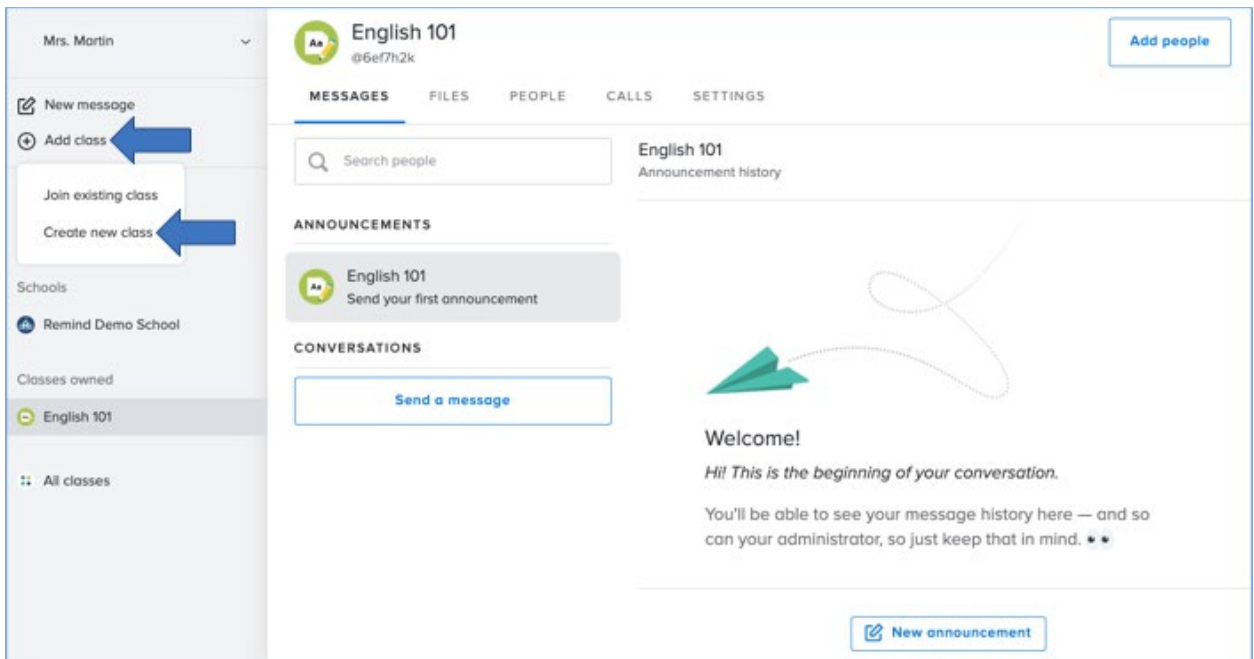

[Students under 13](#) can't join classes owned by parents or students, nor can they join a class that isn't linked to a school.

- [Web](#)
 - [iOS](#)
 - [Android](#)
-

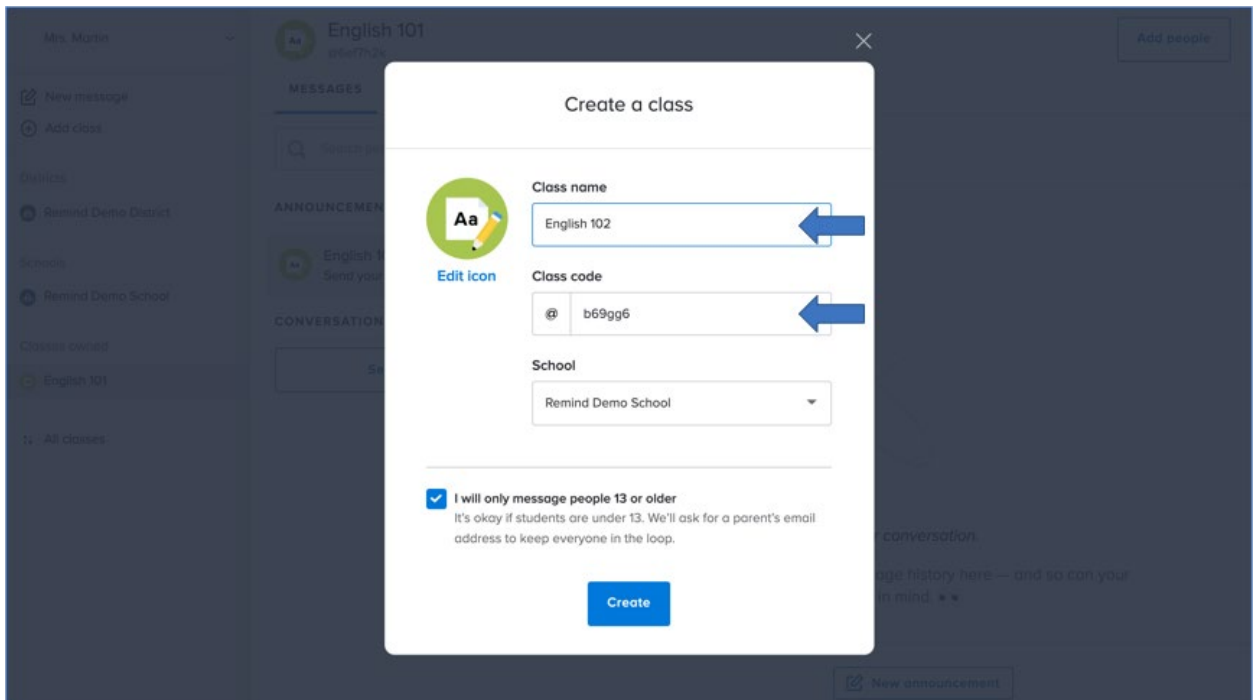

Web

1. Log in to your account.
2. Click **Add class** which is located on the top left side of your dashboard.

3. Select **Create new class**.

4. Add a **Class name**.

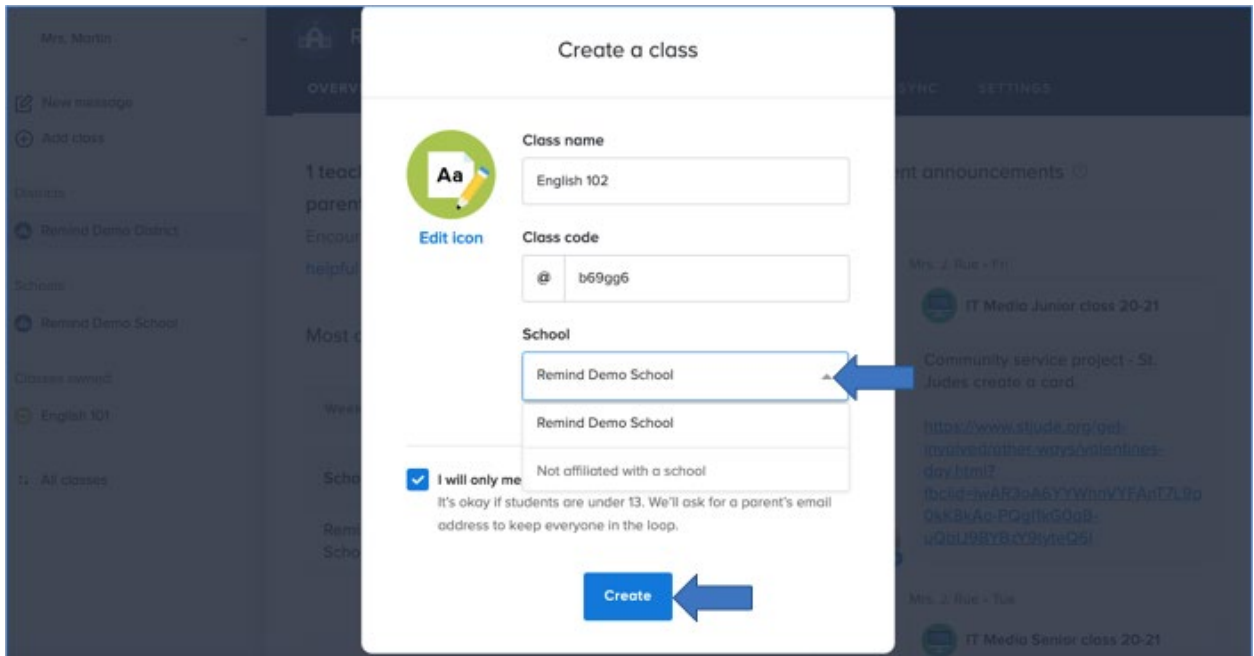

- A Class name should *not* exceed 60 characters including spaces.

- We will automatically generate a class code for you, but you can also create your own code. It must be at least three characters long, and it cannot be in use by any other Remind user.

5. Under **School**, select the organization your class should be connected from the dropdown menu.

6. Click **Create**.

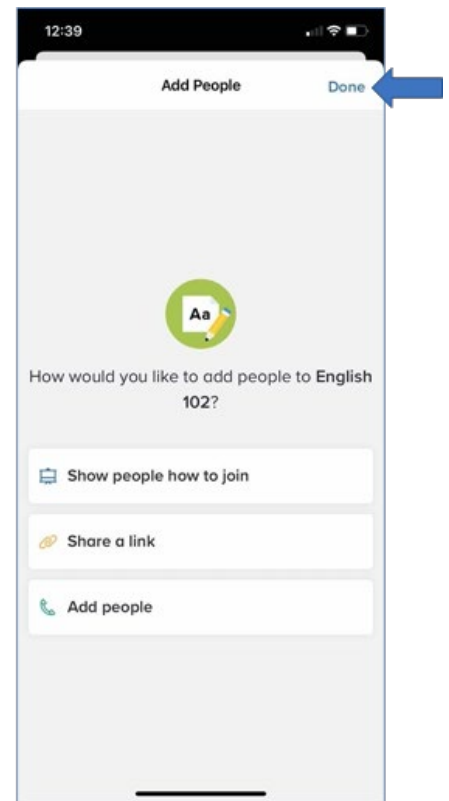

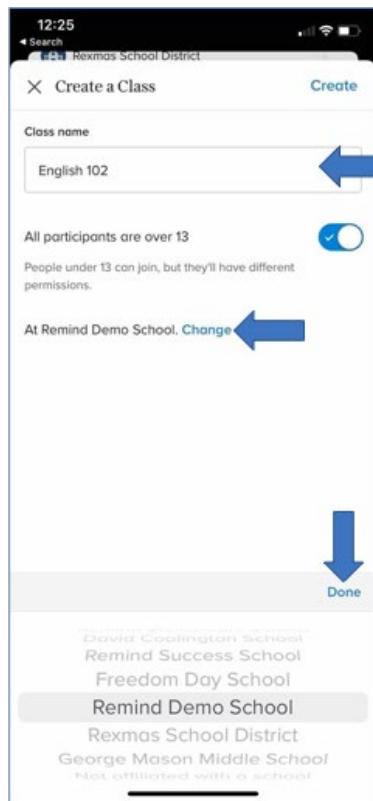

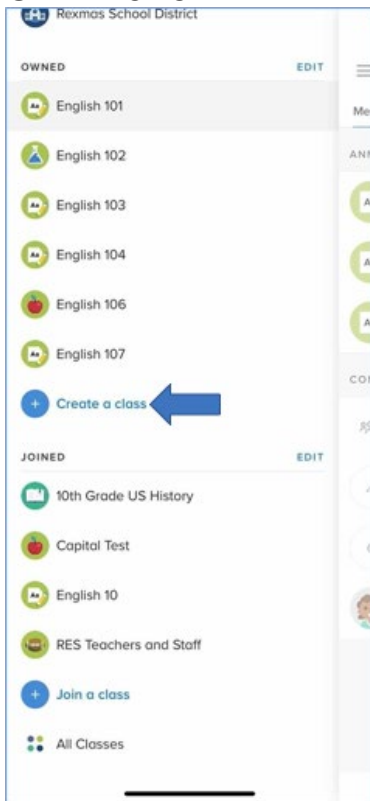

App

iOS

1. Open the Remind app.

2. Scroll down to the **Owned** section.
3. Click **Create a class**.
4. Add a **Class name**.
 - A class name should *not* exceed 60 characters including spaces.
5. Click **Change**.
6. Select the school your class should be affiliated with from the list, and click **Done**.
7. Tap **Create** which is located on the top right side of the screen.
8. Select how you want to add people to the class.

9. Click **Done**.

Android

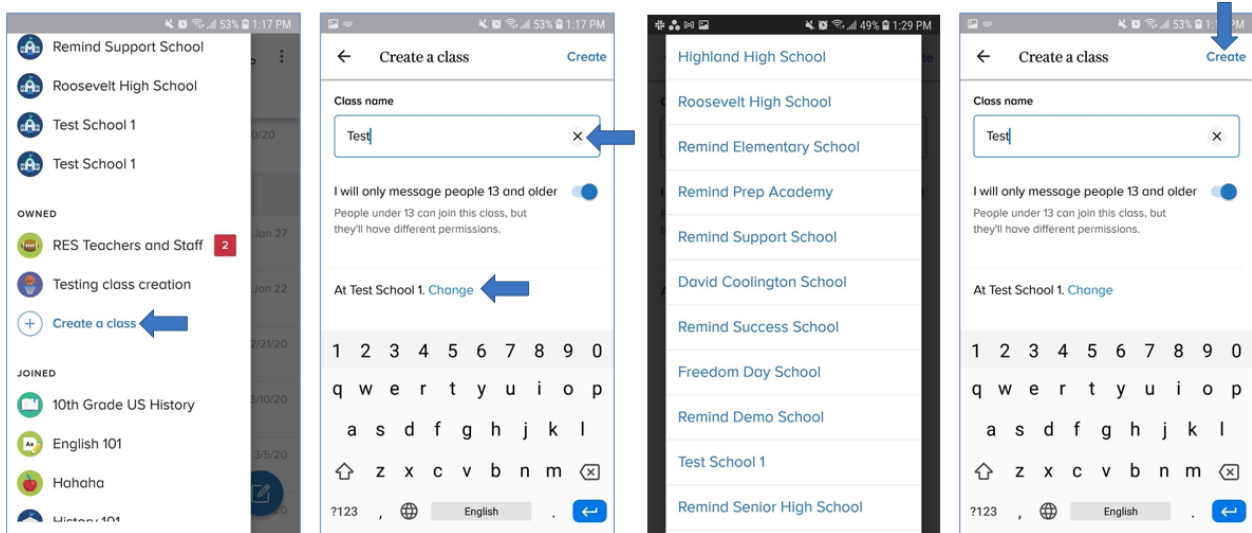

1. Open the Remind app.
2. Scroll down to the **Owned** section.
3. Click **Create a class**.
4. Add a **Class name**.

- A class name should *not* exceed 60 characters including spaces.

5. Click **Change**.

6. Select the school your class should be affiliated with from the list.

7. Tap **Create** which is located on the top right side of the screen.

- [Android](#)

Web

1. Log in to your account.
2. Click **Add class** which is located on the top left side of your dashboard.
3. Select **Create new class**.

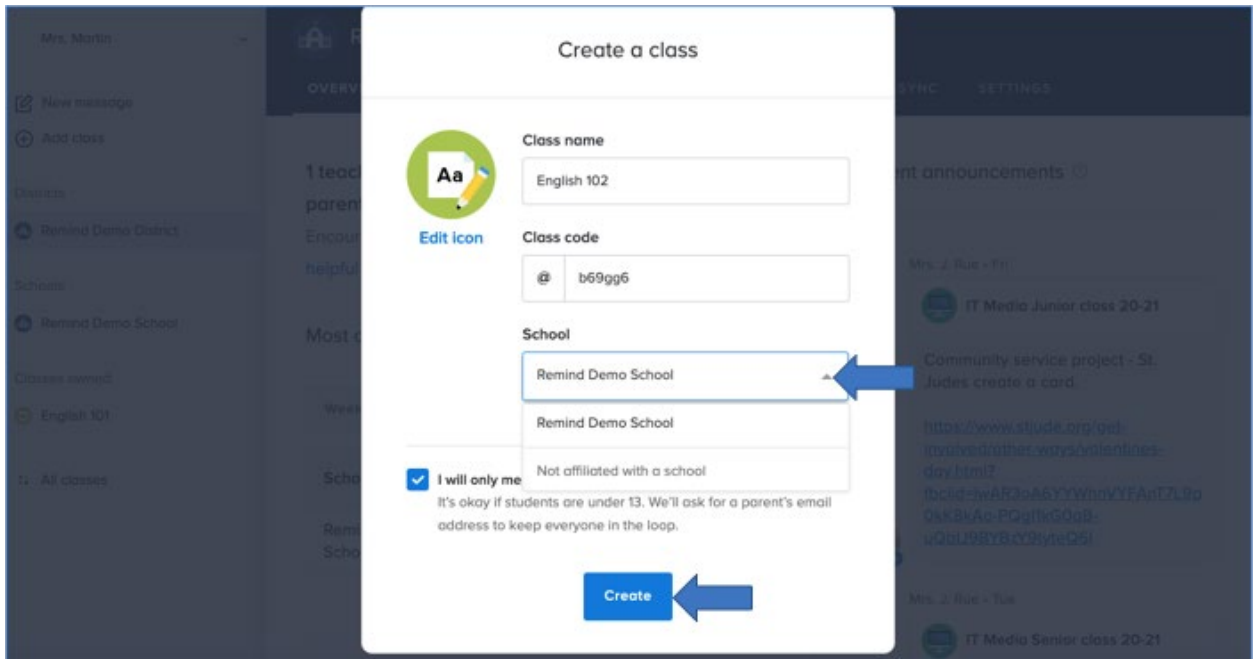

The screenshot shows a web interface for a class named "English 101" (@6ef7h2k). On the left sidebar, under "Mrs. Martin", there are options: "New message", "Add class" (highlighted with a blue arrow), "Join existing class", and "Create new class" (also highlighted with a blue arrow). Below these are sections for "Schools" (Remind Demo School) and "Classes owned" (English 101). The main content area has tabs for "MESSAGES", "FILES", "PEOPLE", "CALLS", and "SETTINGS". It features a search bar for people, an "ANNOUNCEMENTS" section with a card for "English 101" to "Send your first announcement", and a "CONVERSATIONS" section with a "Send a message" button. A large green paper airplane icon is shown with a dotted line trail. A "Welcome!" message follows: "Hi! This is the beginning of your conversation. You'll be able to see your message history here — and so can your administrator, so just keep that in mind. 🌟". At the bottom right, there is a "New announcement" button. An "Add people" button is located in the top right corner.

4. Add a **Class name**.

- A Class name should *not* exceed 60 characters including spaces.
 - We will automatically generate a class code for you, but you can also create your own code. It must be at least three characters long, and it cannot be in use by any other Remind user.
5. Under **School**, select the organization your class should be connected from the dropdown menu.

6. Click **Create**.

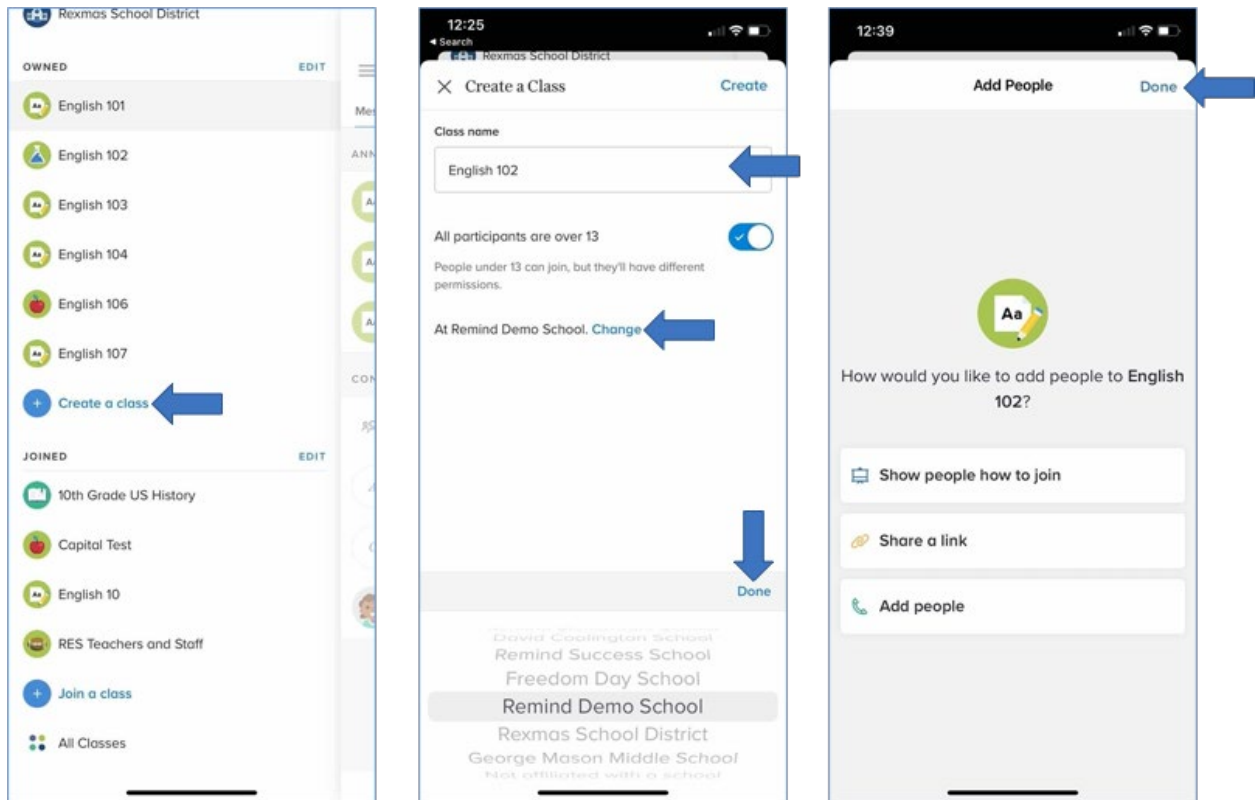

App

iOS

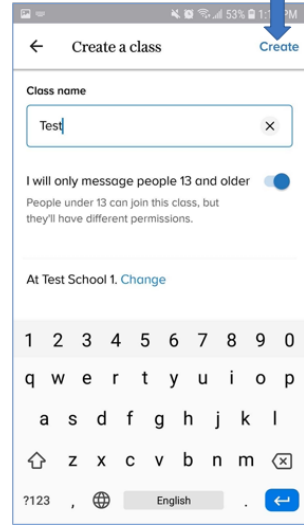

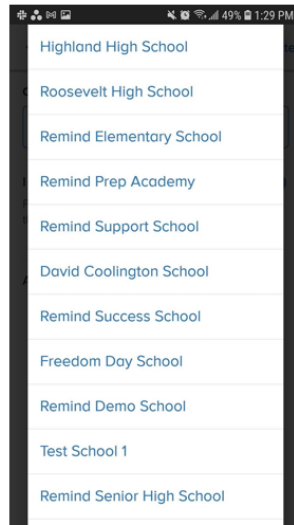

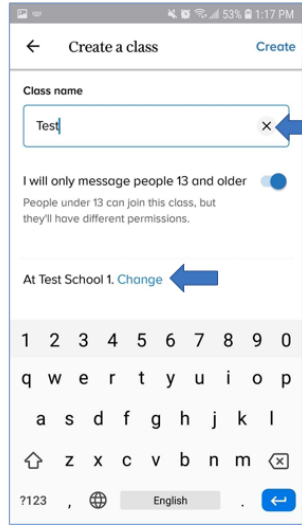

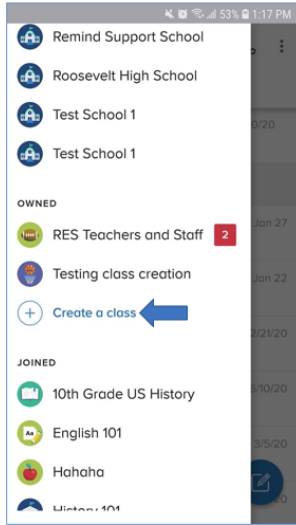

1. Open the Remind app.
2. Scroll down to the **Owned** section.
3. Click **Create a class**.
4. Add a **Class name**.
 - o A class name should *not* exceed 60 characters including spaces.
5. Click **Change**.
6. Select the school your class should be affiliated with from the list, and click **Done**.
7. Tap **Create** which is located on the top right side of the screen.
8. Select how you want to add people to the class.

9. Click **Done**.

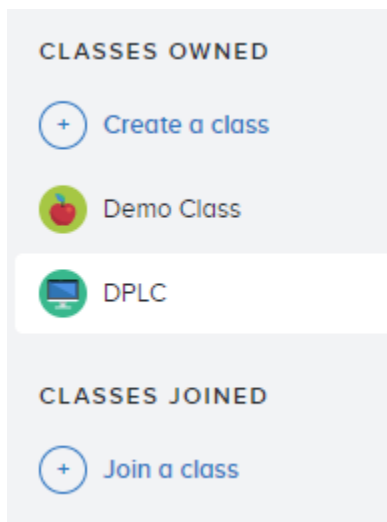

Android

1. Open the Remind app.
2. Scroll down to the **Owned** section.
3. Click **Create a class**.
4. Add a **Class name**.
 - o A class name should *not* exceed 60 characters including spaces.
5. Click **Change**.
6. Select the school your class should be affiliated with from the list.
7. Tap **Create** which is located on the top right side of the screen.

Connecting an Existing REMIND Account to Official MCS REMIND Plan

1. Some teachers already have the FREE Remind account privileges. Moving to the new REMIND Plan account will not affect the existing account or flow of communication if the teacher makes sure the account is tied to his/her official MCS email account.
2. In order to do this, he/she will need to follow the following steps.
3. In order to make sure the account is connected with an official Monroe City School, they will need to open the current account.
4. Select the class that the teacher wishes to connect to MCS officially. Down the left side, the teacher will see a list of “Classes Owned” and “Classes Joined”. The teacher can only select and change settings in a “Classes Owned” item.

5. Once the class is selected, the teacher will see the menu bar across the top of the account site.

MESSAGES

FILES

PEOPLE

CALLS

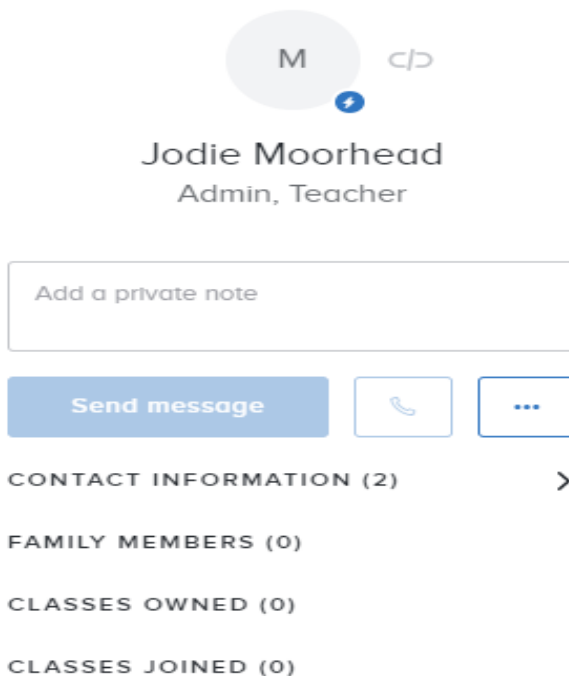

SETTINGS

6. The teacher will choose “People”.

7. They will filter the list to “Teachers” and populate the list.

8. They will find their name on the list and select it. A menu will pop up on the right side of the page.

9. The teacher will select “Contact Information” and make sure that at least one of the email addresses is the official MCS email account, which is also the Google account name.

10. If they need to change their role, they will have to contact Jodie Moorhead, the district admin for Remind.

Updating Existing Tools in the REMIND Program

1. There are many tools and features that the teachers can use within the REMIND program.
2. In order to access these features they will log in to the Remind Application.
3. In the top left corner, the teacher will see something similar to...

4. Click the down arrow next to the name.
5. This will display the following Menu for the teacher:

6. Click on "Account Settings" and the "Profile".
7. Under account settings, the teacher can change the password. All schools are automatically enrolled in REMIND, so they cannot add a school.

- Under “Notification Preferences”, the teacher will be able to decide how they will get REMIND notifications: email, cell (if number is associated), desktop, or through the REMIND app.
- Under the “App Integrations”, the teacher can select which applications that REMIND supports to integrate fully within REMIND. (See next page for menu sample)

Connected to Remind

-  **Google Drive**
Get access to files anywhere through secure cloud storage with Google Drive.
 -  **Google Classroom**
Google Classroom streamlines assignments, boosts collaboration.
 -  **OneDrive**
Modern tools for a collaborative classroom
-

Available apps

-  **Quizlet**
Quizlet is a lightning fast way to learn vocabulary.

Box is changing how you manage content across your organization
-  **Flipgrid**
Flipgrid is a video discussion platform for educators, students, and families.

- The “Widget” tab allows the teacher to copy the HTML code and paste it onto their OnCourse Teacher page, too!

Class widgets

Embed any Remind widget into the HTML of your class website

Step 1: Choose a class

[Show advanced settings](#)

Step 2: Copy the code to your website

```
<script  
src="https://widgets.remind.com/iframe.js?  
token=c2bb2280f72901327ad104d61b94943e&heig  
ht=500&join=false"></script>
```

Copy widget code

[Click here for instructions on how to add the widget.](#)

Select the Class

Copy this text code and paste onto the OnCourse teacher page using the "Paste Code" feature!

There is a separate instruction sheet!

NOTE: When the widget is applied to the teacher page, all comments and messages could/will be displayed

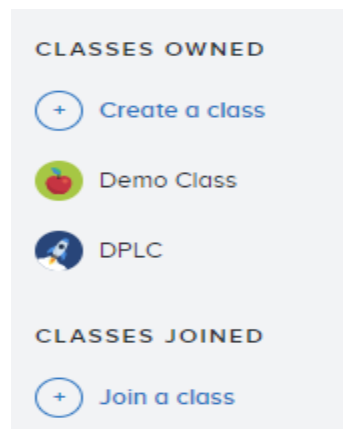

11. Documentation is the name of the game! In REMIND, they can access "Message History" and export PDFs of any and all communication, lists of participants, etc.
12. You can also lists of archived (previously used) classes and blocked users.

CREATING A CLASS IN REMIND

You can add a class from web or app as a teacher, parent, or student. Students under 13 can't join classes owned by parents or students. Students under 13 also can't join a class that isn't linked to a school.

Creating a Class on the Web

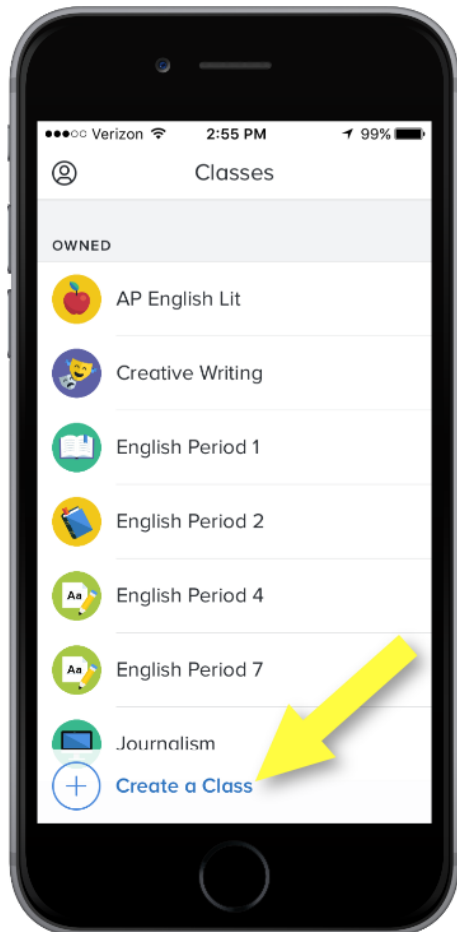

1. Open the website at www.remind.com and log in using your MCS credentials.
2. On the left hand side-bar, you will see "Classes Owned".

3. Under "Classes Owned", you will select "+ Create a Class".
4. You will give the class a name and you can create a code that will be easy to recognize. The code is what will be shared with students and/or parents to allow them to enroll in the class.
5. Select the appropriate school to make sure that is affiliated with the official MCS accounts.
6. Click the blue "Create" button and you are ready to go! Share the code with the students/parents of that class.

Creating a Class on the Remind App

To add a class in the app, click the classes tab, you can then click Create a class at the bottom of your screen next to Classes Owned. There, you will be able to choose your class name and code.

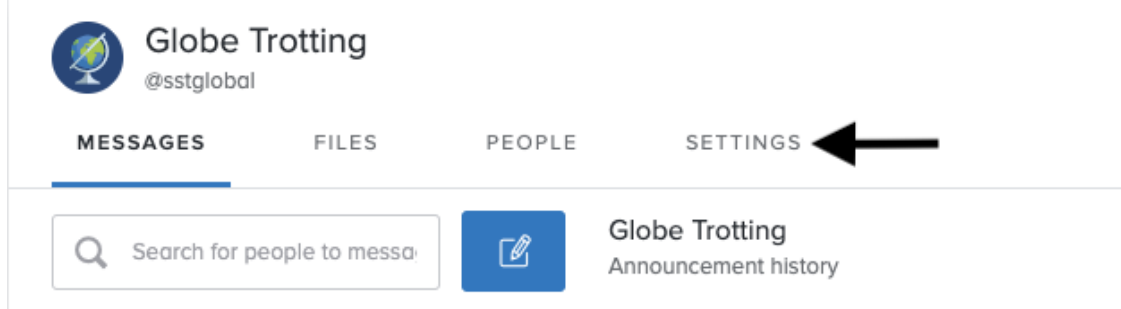

Link a Class to a School

If your school is part of a Remind plan, you'll want to make sure your classes are linked to your school to access upgraded features.

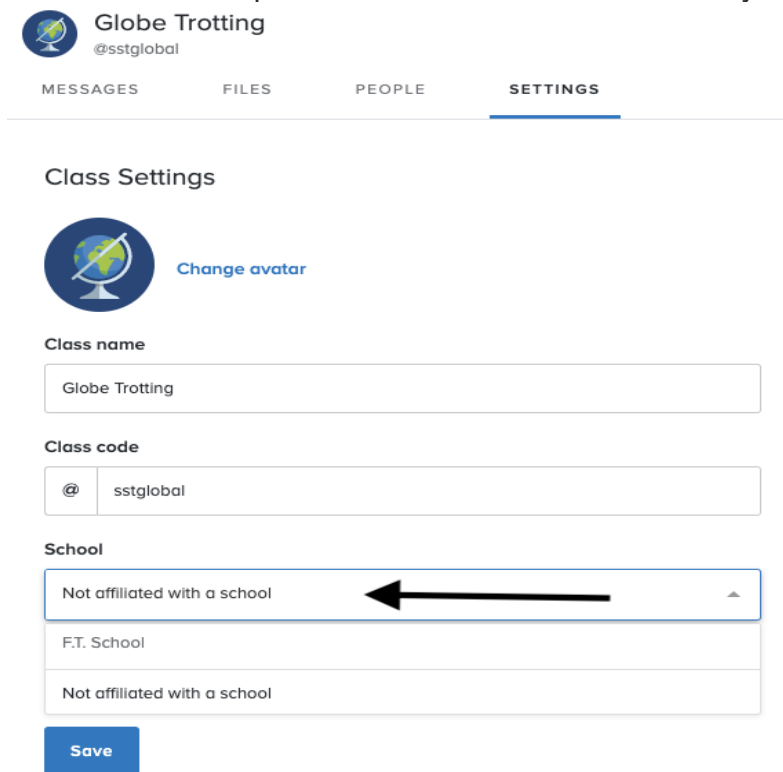

On the web

1. Select the class and click on the Settings tab.

The screenshot shows the profile page for 'Globe Trotting' (@sstglobal). At the top, there are four tabs: 'MESSAGES', 'FILES', 'PEOPLE', and 'SETTINGS'. A black arrow points to the 'SETTINGS' tab. Below the tabs is a search bar with the text 'Search for people to message' and a blue button with a pencil icon. To the right of the button, it says 'Globe Trotting' and 'Announcement history'.

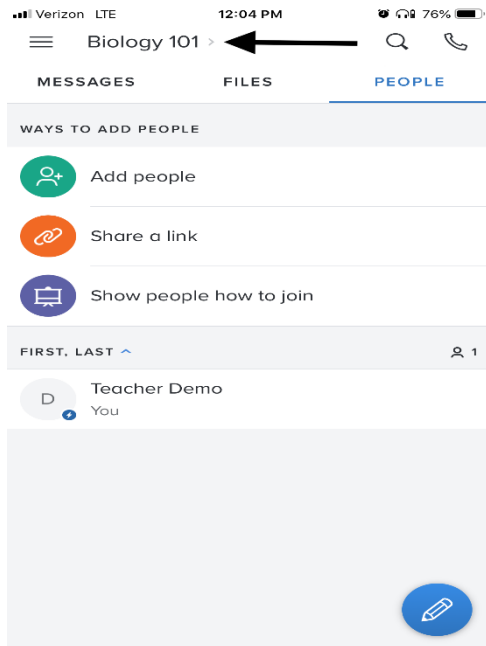

2. Click on the drop down list under "School" to select your school.

The screenshot shows the 'Class Settings' page for 'Globe Trotting' (@sstglobal). The 'SETTINGS' tab is selected. Under 'Class name', there is a text input field containing 'Globe Trotting'. Under 'Class code', there is a text input field containing '@ sstglobal'. Under 'School', there is a dropdown menu with the text 'Not affiliated with a school' and a black arrow pointing to it. Below the dropdown menu, there are two more options: 'F.T. School' and 'Not affiliated with a school'. At the bottom, there is a blue 'Save' button.

In the app

1. Click on the class name to access class settings.

2. Click on the drop down menu under "School."

Google Sites - Current Version

Edmodo

Schoology

School Loop

Tips for Driving Engagement with Remind

The **Statistics** tab in your Remind admin dashboard provides you with usage data to monitor the engagement of your school over time, viewing the data by day, week, or month. You can also see how your community is interacting with Remind most: app, web, text, or email. Administrators, teachers, and parents can use Remind to become more effective engagement drivers in their community.

Administrators

- Send Social Emotional Learning messages to parents
- Send notifications about schedule changes, reminders about form completion dates, and other district wide events

Teachers

- Send one class announcement a week with an overview of the week's assignments
- Send "You Did Good!" messages to students and parents to highlight outstanding work and build rapport with parents and students

Parental Engagement

- Send messages to drive attendance to PTO events and to drive participation in school fundraisers. Ask Elementary teachers to identify a Remind classroom parent to send class announcements to parents
- Include a newsletter as a file/PDF or as a Google Drive file through your connected account
- Have teachers hang posters on their door with their class code during Back to School Night or first day of school to encourage parents to join via 81010
